

HIMANSHU ACHARYA

Software Developer

📍 Jaipur, India | 📞 +91 9413408537 | ✉ himanshu.acharya108@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Computer Science undergraduate with a strong foundation in software development, problem solving, and Data Structures & Algorithms. Proficient in Java, C++, Python, JavaScript, SQL, OOP, DBMS, Operating Systems, and Computer Networks. Experienced in debugging, writing structured code, analyzing problems, and building practical software applications. Completed the Striver A2Z DSA Sheet and solved 200+ coding problems. Seeking opportunities to contribute to reliable and maintainable software solutions.

TECHNICAL SKILLS

Programming: Java, C++, C, Python, JavaScript

Web: HTML5, CSS3, JavaScript

Core CS: Data Structures & Algorithms, OOP, Operating Systems, DBMS, SQL, Computer Networks

Tools & Platforms: Git, GitHub, VS Code, Render

AI Tools & Productivity: GenerateX, AI, Prompt Engineering, ChatGPT, Gemini, Meta AI, AI-Assisted Content Creation, Technical Research

Documentation: MS Office, Google Sheets, Data Management, Technical Documentation, Cross-Functional Collaboration

Problem Solving: Debugging, Complexity Analysis, Analytical & Logical Reasoning

PROJECTS

Image Recognition Chatbot | *Computer Vision*

- Built an image-analysis chatbot that processes images and provides descriptive information about detected visual content.
- Implemented an OpenCV-based image-processing workflow to analyze visual inputs and return useful descriptions.
- Designed the interaction flow to demonstrate image understanding and automated user assistance.

Student Management System | *Technology: Java, Spring Boot, REST API, MySQL*

- Developed a backend-oriented student management application for organizing student records and academic information.
- Implemented RESTful APIs with Spring Boot for structured CRUD operations and service-layer logic.
- Integrated MySQL for persistent storage and designed the application around maintainable, modular components.

Resume Generator | *Technology: Java, Spring Boot, REST API, HTML/CSS/JavaScript*

- Developed a web application for creating and organizing professional resumes through structured user input.
- Built REST APIs with Spring Boot to manage resume data and connect frontend workflows with backend services.
- Created a responsive HTML/CSS/JavaScript interface focused on a simple and efficient resume-generation workflow.

INTERNSHIP EXPERIENCE

Software Developer Intern – Renno Robotics Pvt. Ltd. | Jul 2025

- Worked on software development and problem-solving tasks in a professional environment.
- Analyzed technical requirements and contributed to structured software solutions.
- Strengthened debugging, analytical reasoning, and technical communication skills.

Software Developer Intern – Linko State | 2024

- Worked on software development tasks and applied structured programming concepts.
- Practiced debugging and systematic problem solving during development workflows.

CERTIFICATIONS

Oracle Cloud Infrastructure Foundations Associate – Oracle

EDUCATION

B.Tech, Computer Science & Engineering – Poornima College of Engineering, Jaipur 2023–2027

CGPA: 7.00

Class 12th (Science) – CBSE 2022 | 83%

Class 10th – CBSE, KV Bhilwara 93%

ACHIEVEMENTS

- Solved 200+ coding problems on LeetCode and GeeksforGeeks.
- Completed the Striver A2Z DSA Sheet covering major data structures and algorithm patterns.
- Strong working knowledge of OOP, DBMS, Operating Systems, and Computer Networks.
